

Virtual International Conference  
on  
"Recent Trends in Business Management, Social Sciences and Education"  
on 16 and 17 October 2020

The virtual conference was the prestigious event organized by Department of PG Studies and Research in Management, Karnataka State Akkamahadevi Women's University, Vijayapura, Karnataka, India with an intention to motivate and offer an international platform for the academicians, researchers, industrialist, entrepreneurs and students around the globe to share their rich experience on recent trends in Business Management, Social Sciences and Education. The key intention of the conference was to provide an opportunity for the participants throughout the world to share their rich experience and ideas. In addition this forum helped the participants to build the network, establish research or business relations as well as to find international linkage for future collaborations in their career path. We hope that the outcome have lead to significant contributions to the knowledge base.

#### ABSTRACT:

The world is battling Covid-19 and economies across the globe have declared a lockdown. Work from home (WFH) has become the norm, especially for service organizations. Following government instructions, even the academic institutions had to shut down temporarily, affecting academic delivery. Thus, they had to find new alternatives to academic delivery, and virtual classes were the way forward. This paper explores various strategies for creating engaging online learning environments. It describes a framework which identifies and distinguishes between the critical elements needed in the design of online learning. Provides perspectives on the theory, Development, And Application of Innovations in Teaching and Learning. Authors share ideas, training to manage online courses case studies, feedback-based learning, online learning, computer assisted assessment, screencast technology, and original research on pilot projects, opportunities, emerging technologies, and other innovations in teaching and learning. This text presents major terms in educational focusing on original methodologies and models & promote technology-based learning processes.

**Keywords:** Scope and Limitations, Improvement of Higher Education, Instructional Strategies, Techniques, Covid-19 Impact, Types, Finding & Suggestion etc.
