## Criterion - VI

## 6. Governance, Leadership and Management

6.1 State the Vision and Mission of the institution

## Vision:

To make our students aware of their own capability, to make them think and aim high by providing best learning environment and to mould them into all round personality.

## Mission:

Our mission is to empower and uplift the students coming from rural areas. To make them independent, to impart knowledge and vision. To make them capable for the changing global environment around them, yet maintaining their identity as a good human being morally, socially, intellectually and culturally.

6.2 Does the Institution has a management Information System

Yes

- 6.3 Quality improvement strategies adopted by the institution for each of the following:
  - 6.3.1 Curriculum Development

Curriculum is developed by University. We depute our teachers to participate in workshops organized for curriculum development where they give their valuable recommendations and suggestions

## 6.3.2 Teaching and Learning

Every teacher prepares annual teaching plan and accordingly the teaching schedule is implemented.

## 6.3.3 Examination and Evaluation

As per the University norms, Chief Examination Officer is appointed and examination and evaluation work is done as per University rules under his control. The tests and examinations are conducted and the evaluation is done accordingly. The annual examination is conducted by the University.

## 6.3.4 Research and Development

We provide the necessary infrastructural facilities for research and development as per the requirement in order to create research environment in the college.

## 6.3.5 Library, ICT and physical infrastructure / instrumentation

The library, ICT and infrastructural facilities are provided as per the need of students and staff. The internet facility, Wi-Fi facility, computer laboratory, language laboratory, virtual classroom, well equipped computerized library help the process of teaching, learning, research and extension.

## 6.3.6 Human Resource Management

We formulate the policies to make the best use of abilities and capabilities of teachers, non-teaching staff and students.

## 6.3.7 Faculty and Staff recruitment

We recruit the teaching and non-teaching staff as per the requirements by following the selection procedure laid down by the University and the Government

## 6.3.8 Industry Interaction / Collaboration

We arrange industrial visits for the students. We invite the persons from industry and banks in the college for guest lectures. We have signed MoU with the industry sector.

## 6.3.9 Admission of Students

The admissions are given as per the rules and regulations of SPPU and the Government.

## 6.4 Welfare schemes for

\*\*\*

## **Annexure I**

## Best practice 1

## 1. Title of the Best practice:

## The Social Reformation Campaign for Socially Deprived Classes

The college has initiated campaign of reformation for socially deprived classes such as SC and ST in and around Chakan.

## 2. Goal:

To upgrade living standards of socially deprived classes, especially SCs and STs, by organizing programmes and activities to create awareness among them for sustainable development.

## 3. The Context:

Apart from the mutual efforts of Government organizations and NGOs, a large section of the society is deprived of the development. It has been noticed that the socially deprived communities have the issues like illiteracy, superstitions, alcoholism, unemployment, financial mismanagement, unawareness of government schemes etc. If these people are offered reformation and orientation programme to deal with the above issues, it will help them to become aware of their own rights, and responsibilities.

The college has initiated its activity titled The Social Reformation Campaign for Socially Deprived Classes, Ambethan, a neighboring village, is chosen as a target village as it has a prominent population of socially deprived class. Various activities and programmes are planned with the following objectives.

- 1. To create awareness about health issues.
- 2. To create awareness about significance of education.
- 3. To create awareness about hazard of superstitions.
- 4. To create awareness about various government schemes.
- 5. To create awareness about possible recruitment drives.
- 6. To create awareness about self esteem and self reliance.

## 4. The Practice:

At the beginning, the college took a lead and approached the socially deprived people. After interacting with them, they were convinced and the college team was able to win their confidence. A team of volunteers including students, social workers, college teachers has been given the responsibility to organize various activities. These activities and programmes are practiced systematically, the steps and processes take place as follows...

- 1. Discussion about the activity or programme covering an issue in a meeting at the college.
- 2. Volunteers are told to inform the schedule and venue of the activity/ programme to the community members.
- 3. An activity / programme is conducted on a scheduled time at the venue.
- 4. The Community members are motivated to interact with the team of the resource persons.
- 5. The issues and problems are discussed to find out remedies and solutions.
- 6. The concluding session is organized to highlight the issues and solutions.

However it has the following constraints and limitations.

- 1. The socially deprived community needs support from the main stream society.
- 2. For organization of activities and programmes needs monetary support.
- 3. The goal of the activity can be achieved in the long run only.

## 5. Evidence of Success

The Population of socially deprived community is around 179 in Ambethan. There are 28 families having 87 men and 92 women. We run this activity for them and its outcome is as follows.

## 1. Educational Awareness:

Due to the activity about educational awareness, 30 boys and 23 girls have been attending the school regularly. Earlier they were kept at home to look after their younger siblings.

## 2. Anti Superstitious Drive:

Due to the orientation programme and practical demonstration by a resource person the people are aware of the side effects of superstitions and blind faith.

- 3. Health and Hygiene:
- 1. Medical checkup and orientation camp was organized for girls and women
- 2. All the 28 families have built the toilet facility at their respective homes.
- 4. Government schemes:
- 1. As a result of a programme to create awareness of government schemes, seven families have been received homes under Indira Awas Yojana.
- 2. Some people have benefitted through the schemes like Sanjay Gandhi Niradhar Yojana and Shravanbal Yojana.
- 3. Due to the workshop conducted by a government agency, some of the families have received ration cards, caste certificates and medical smart cards.
- 4. Due to the efforts taken by the college, 86 community members have opened their bank accounts in the nearby nationalized bank.
- 5. Library:

We run a community library, an extension centre of the college library, an extension centre of the college library, to inculcate the habit of reading and developing ability to introspect among the community members.

## 6. Problems Encountered and Resources Required

The social Reformation campaign for socially Deprived classes is one of the unique and regular activities of the college. However, the college encountered with few problems during the organization and execution of the activity.

1. Winning the trust and Confidence of the community members:

The community members had privileged past. They have been deprived by the main stream society. These is a huge gap between these two groups of the society. To bridge the gap is the need of the time but it requires time and efforts. Besides this keeping in view the government grant, many NGos organized the activities superfluously. To win back the trust and confidence was the major hurdle.

## 2. Generation of Funds:

The Funds are required for travelling, paying honorariums to experts, and some miscellaneous expenses.

## 7. Notes (optional)

The social Reformation campaign for socially Deprived class is an unique, innovative and sensitive activity of the college. The commitment, willingness and devotion of the team members make efforts to bring out change in the lives of the people. If the efforts are multiplied and intensified, then the results and signs of development can be seen at the larger scale.

## **Annexure II**

## **Best practice-2**

## 1. Title of the Practice:

## **Entrepreneurship Development for Girl students**

## 2. Goal

The college was established to provide facilities for the students who are deprived of new opportunities to develop their skills and personality, as they belong to the rural area. As per the social norms the percentage of the girls getting married before they complete their graduation is quite large. Those students who have potential to have a good career in life are torn off from the education. With an intention to provide them an opportunity in future and to possess some knowledge and skills to earn money from small capital we started this activity in college since 2007.

Objectives of the activity are –

- To enable the girls to start their own business.
- To introduce the students various fields of business.
- To educate them right from costing to marketing
- To make them aware of the overheads for calculation of the cost and profit.
- To make them self independent and confident

## 3. The Context

The girls never have opportunities to go out of Chakan to learn new skills; in spite of possessing good caliber. The social systems are the constraints for their progress. Most of them have education as their second priority to farming and looking after the houses. To have the sense of self respect and self esteem, they are introduced with the new opportunities through these activities, which are feasible for them to follow with little capital.

## 4. The Practice

To the beginning of the year, the committee discusses with the Principal about the activities and the budget. The students are given a few options to choose the product as per their liking and the scope they find easier to produce in their area. We conduct workshops twice a year; one workshop in each term of the academic year. Initially we tried to conduct two programmes in each term but it turned out to be too hectic as the students had to participate in other activities as well. We invite the expertise having professional and practical knowledge in that subject. Also the professor of Economics, who happens to be a member of this committee, explains all the financial factors in the production. He guides them right from purchasing the raw material to the marketing in an impressive manner. The resource person gives a lecture initially telling the practical aspect of the products. The addresses of the shops of the raw material and then the procedure. The students get a good opportunity to make the product under the guidance of the resource person. Then they practice at home and sell the products within their area. We exhibit the products on 26<sup>th</sup> Jan every year and the management members, LMC members, the professors visit it. The students get motivation with their interest and valuable guidance.

To mention a few selected workshops which turned really beneficial to the students to earn money are as follows-

- Making of Fur Toys
- Making of Perfumes
- Fancy Candles
- Instant food recipes such as *Upama*, *Idli*, *Dhokala*, Chutneys etc.
- Making Spices and Ayurvedic Face Packs

- Artificial Jewelry
- Eco friendly Ornaments and Decoration
- Designer Key Holders
- Designer Name Plates
- Making Moulds and Effigy
- Paper-flower Arrangement
- Mural Making
- Lampshades
- Floating Lamps

## 5. Evidence of Success

This activity is not merely a hobby class but a source of income for the students. Many students have tried making products.

Many students proudly told us that they shared a significant part of Diwali expenses from their source of income by making and selling these products. Also they helped themselves learning computer courses and paying college fees. A girl had to start this kind of business for her husband who met with an accident and lost his job.

This activity is very well appreciated by the students and has reached a level of success so far.

## 6. Problems Encountered and Resources Required

The major problem is of the expenses for conducting of the courses. We depend upon the sponsors for funds. Only during the year 2010-11, we received a grant from Student Welfare Department of Savitribai Phule Pune University.
